**COURSE OBJECTIVES**

**Melanie Chichester, BSN, RNC-OB**
1. Describe normal physiological changes of pregnancy.
2. Summarize presentation/management of the pregnant woman with selected complaints of bleeding in pregnancy.
3. Differentiate between stable and potentially unstable pregnant patients who present with vaginal bleeding.

**Paula Dominique, BSN, RN, CCRN**
1. Discuss methods of nurses passing knowledge on to the next generation.
2. Describe the differences between various generations of nurses and the challenges created in the workplace.

**Deena Brecher, MSN, RN, APRN, ACNS-BC, CEN, CPEN**
1. Describe two red flags for trauma in patients who present to the ED with medical complaints.
2. Identify signs of a surgical emergency in a neonate.
3. Identify two potentially life threatening medical conditions of fussiness in a neonate.
4. Differentiate between a truly ill neonate and one who is well.

**Joseph P. Hopple, NREMT-P**
1. Explain the actual hazards and myths of motor vehicle crashes involving hybrid vehicles.
2. Review potential injuries seen by patients involved in motor vehicle collisions involving hybrid vehicles.
3. State the advantages of using high fidelity simulation for teaching assessment, psychomotor skills and teamwork.
4. Discuss techniques to use high fidelity simulation to challenge learners and collect data on performance.

**Praveen Mital, MD**
1. Describe the common mistakes when signing out a patient Against Medical Advice.
2. Discuss common misconceptions of patients with a DNR status.

**Dawn Culp, MSN, RN, SANE-A/P, FNE**
**DV Specialist and Gang Consultant**
1. Define Forensic Nurse Examiner (FNE)
2. Review DE’s pre and post development of SANE/FNE hospital programs.
3. State two methods to identify gang members that present to the ED.
4. Describe the nursing role and safety measures while caring for a gang member in the ED.

**Kathy Sokola, EdD, RN CNE**
1. Identify assessment and management strategies for the febrile patient with cancer.
2. Delineate the acute care management of a patient with tumor lysis syndrome.
3. Design a plan of care for the patient with DIC.

**Janice McKay, RN, CEN, CFRN**
1. Discuss “helicopter shopping” as defined by the FAA and its consequences it has on the air medical industry.
2. Differentiate between air medical services and FAA regulations involving weather limitations.

**Brian Levine, MD, FACEP, FAAEM**
1. Discuss the epidemiology of the drug problem in the U.S.
2. Review the effects of cocaine, opiates, methamphetamine and bath salts.

---

Program Purpose: To provide current information and evidence-based clinical updates to healthcare providers caring for patients in the emergency setting.

In accordance with the Americans with Disabilities Act, DENA will accommodate individual needs upon request. For assistance, please contact susan_ebaugh@bayhealth.org by October 31, 2012. Speakers are subject to change at the discretion of the conference planning committee.

Bayhealth is approved as a provider of continuing education by the Delaware Nurses Association, an accredited approver by the American Nurses Credentialing Center’s Commission on Accreditation.

6.25 Nursing Contact Hours are offered for this program. Attendance is required for the entire program to receive continuing education credit.

---

This program is co-provided with The Delaware Emergency Nurses Association.
SYMPOSIUM AGENDA

7:00 – 7:45 a.m.  Registration
7:45 – 8:00 a.m.  Welcome
8:00 – 9:00 a.m.  There Will Be Blood: Bleeding in Pregnancy
Melanie Chichester, BSN, RNC-OB

Pregnancy and bleeding—what you really need to know! Through case presentation, selected complaints of bleeding in pregnancy will be presented to help you differentiate between stable and unstable patients.

9:00 – 10:00 a.m.  You Can’t Take It With You, So PASS IT ON!
Paula Dominique, BSN, RN, CCRN

The nursing workforce is more age diverse than ever. Each generation has a distinct set of characteristics, values, beliefs and preferences. Learn how to utilize these differences and blend them in the workplace to benefit both patients and staff.

10:00 – 10:30 a.m.  Break and Vendors

FAST BREAKOUT SESSIONS

10:30 – 11:00 a.m.  Babies Behaving Badly - Part 1!
Deena Brecher, MSN, RN, APRN, ACNS-BC, CEN, CPEN

“My baby won’t wake up!” This speaker will use case presentations to help you identify red flags for pediatric patients presenting with medical complaints and/or surgical emergencies. (Part 1 and 2 are independent lectures!)

10:30 – 11:00 a.m.  The Shocking Truth about Hybrids
Joseph P. Hopple, NREMT-P

Hybrids are becoming commonplace on roads today. Learn how to respond to these motor vehicle collisions, understand the myths and unique hazards while providing patient care.

11:05 – 11:35 a.m.  Babies Behaving Badly-Part 2!
Deena Brecher, MSN, RN, APRN, ACNS-BC, CEN, CPEN

Fussy baby or really sick? Missed assessments can lead to devastating consequences! Through case presentation, the speaker will help you to identify potentially life threatening pediatric medical emergencies. (Part 1 and 2 are independent lectures!)

11:05 – 11:35 a.m.  Stimulating Learning with Simulation
Joseph P. Hopple, NREMT-P

Familiar with high fidelity simulation? Learn the advantages and challenges when using all simulating types of teaching for healthcare providers. Identify how to effectively achieve learning objectives for yourself and your staff.

11:40 – 12:40 p.m.  DNR and AMA: Getting It Right!
Praveen Mitil, MD

Whether you are pre-hospital or in the ED, you have probably experienced challenges with patients and families over the DNR order or patients leaving AMA. What are your legal and ethical obligations? Lively discussion and audience participation will assist your next encounter.

12:40 – 1:40 p.m.  Lunch and Vendors

1:40 – 2:10 p.m.  Oncologic Emergencies in the ED
Kathy Sokola, EdD, RN, CNE

Onco pacientes can present to the ED with a multitude of complications. Quick identification of specific life threatening conditions will enhance your knowledge for this special population.

2:15 – 2:45 p.m.  Nursing Gang Members Back to Health
Dawn Culp, MSN, RN, SANE-A/P, FNE,
DV Specialist and Gang Consultant

How do you know you are caring for a gang member? Learn various methods of identification of gang members and how to keep yourself and coworkers safe in the process.

2:15 – 2:45 p.m.  Helicopter Shopping is a Dangerous Practice: What You Need to Know!
Janice McKay, RN, CEN, CFRN

Helicopter services play an important role to transport critically ill or injured patients. Learn about the practice of “Helicopter Shopping”, factors that could lead to accidents and how you can prevent a fatal consequence with air medical programs in your area.

3:00 – 4:00 p.m.  Evaluations

REGISTRATION FORM

Delaware ENA 2012 Symposium
Wednesday, November 7, 2012
Registration Deadline: October 31, 2012

Target audience is emergency nurses and prehospital providers
Please select:

☐ RN  ☐ Prehospital  ☐ Student

Name:__________________________________________

Credentials:____________________________________

Email:__________________________________________

Address: ___________________________  City: ____________ State: ______ Zip: ____________

Employer:______________________________________

ENA membership #:____________________________

Lunch options, select one:

☐ Flank Steak Salad  ☐ Chicken Normandy

□ Vegetable Wellington

Conference Registration Fee:
Full payment required at time of registration. Confirmations will be sent by email only. Make checks payable to DENA

☐ $89 ENA member or Prehospital personnel

☐ $99 non ENA member

Breakfast, lunch and snack breaks are included in the registration fee.

A limited number of rooms are available at a discounted rate. Please mention DENA when making your reservation.

Mail completed registration form and check to:

Susan Ebaugh
172 Continental Drive
Dover, DE 19904

Email questions should go to susan_ebaugh@bayhealth.org

Conference Location Information:
Dover Downs Convention Center and Casino
1131 North DuPont Highway
Dover, DE 19901
